

Sun shines on J Tomlinson—Principal Contractor on 1.5MW PV Installation

FOR IMMEDIATE RELEASE. Nottingham, 12th May 2011.

J Tomlinson are delighted to have been appointed Principal Contractor alongside Spanish company Grupotec Tecnologia Solar to carry out the installation of a 1.5MW, 7500 panel photovoltaic system.

This contract win is important in the company's ever increasing role in the UK's photovoltaic market. It demonstrates our ability to undertake large PV installations incorporating our construction and electrical expertise.

Pat Cassidy, Managing Director of J Tomlinson's Project Operations commented: "over the years, J Tomlinson has become well known as a multi-disciplinary construction specialist offering a total solution and the additional offering of large commercial PV installations fills an important need from environmentally conscious and financially savvy clients."

For more information on the feasibility of PV systems and to arrange for a site visit or further information, please contact Pat Cassidy, Managing Director.
